

STATE AND LOCAL GOVERNMENT ACCESS TO FAAC'S TRAINING PRODUCTS THROUGH GSA SCHEDULE 00CORP

State and local government agencies can harness the purchasing power of the federal government by using a GSA Schedule contract to their advantage. To reduce procurement efforts and costs, GSA provides a pre-vetted source of supply. GSA Schedule contracts may be used within your own agency's procurement policies and any source of funding, including federal grants. Buyers should consult with their procurement policies and granting agency for additional guidance.

Access to GSA Schedule contracts by state and local agencies varies by Schedule. State and local agencies can access FAAC's GSA Schedule 00CORP contract through one of two GSA State and Local Programs, **1122 Program** or **Disaster Recovery Program**. Participation in these programs is voluntary for agencies, but required by GSA in order to use FAAC's GSA Schedule 00CORP contract as a source of supply.

1122 PROGRAM

The 1122 Program enables municipal government agencies, in participating states, to purchase FAAC's products and services in support of Counter-Drug, Homeland Security or Emergency Response activities.

Purchases under this program require agencies to contact and obtain written authorization from their GSA State Point of Contact (SPOC) before issuing a Purchase Order or contract. The SPOC will provide guidance on how the order will be issued. If the agency issues its own PO or contract then a copy of the authorization must be provided to FAAC along with the order. For a current list of participating states and their respective SPOC information please visit: <http://www.gsa.gov/portal/getMediaData?mediald=217679>.

DISASTER RECOVERY PROGRAM

The Disaster Recovery Program enables state and local buying entities to buy goods and services to help facilitate recovery from a major disaster such as a major weather event, terrorism, or nuclear, biological, chemical, or radiological attack or to help facilitate disaster preparedness and response. This program covers a wide range of actions and operations including planning and training for incident response in order to save lives, protecting property, meeting emergency plans for recovery, promoting the evaluation of incident response needs, and developing initiatives to help mitigate the effects of future incidents. Complete definitions of "preparedness," "response," and "recovery" as applied to this program are available online at: <http://www.gsa.gov/portal/content/202557#>.

Purchases under this program are at the determination of the agency. GSA requires that a Purchase Order or contract issued under this Program include an identification statement, such as:

"This order is placed under GSA Schedule number GS-00F-332CA under the authority of the GSA Disaster Purchasing program. The products and services purchased will be used in preparation or response to disasters or recovery from major disaster declared by the President, or recovery from terrorism or nuclear, biological, chemical, or radiological attack." OR at a minimum: ***"GSA Contract GS-00F-332CA; Disaster Recovery"***

For more information about these programs or to obtain additional information visit the GSA State and Local Government Customers website at <http://www.gsa.gov/portal/category/100631>.

FAAC's products and services for the 1122 and Disaster Recovery Programs are listed under SIN 874-9. Additional open market items are allowed under FAAC's GSA Schedule 00CORP contract under circumstances set forth in FAR 8.402(f).

For more information on FAAC's Public Safety training products, visit FAAC's website at www.faac.com or contact Mrs. Bobbi Riley at 1-877-322-2387 or bobbi@faac.com.
