

## CORRECTIONS/ IN-CUSTODY TRAINING SYSTEM

MISSION-SPECIFIC. MISSION-ADAPTABLE. MISSION-EFFECTIVE.

The MILO Corrections/In-Custody Training System offers the most advanced feature set available for interactive judgment training for corrections/in-custody situations. No other system can deliver a more realistic, adaptable training environment to your mission.

In addition to ready-to-train scenarios, an extensive library of interactive exercises is included ranging from simple diagnostic drills to advanced judgment and decision-making applications. Optional MILO Course Designer software empowers instructors to create new, fully interactive video scenarios allowing them to apply their policies and procedures in a familiar environment.

All from a company with 25 years of simulation experience and backed by our 24/7 technical support, the MILO Range Corrections/In-Custody Training System makes it easy to create a safe, reliable, and effective training program.

HD corrections/in-custody video scenarios offer full emotional immersion with multiple branching decisions and outcomes

Easy to Use: Intuitive MILO interface based on Windows Operating Software

Instructor-controlled response options (verbal recognition, force applications, escalation/de-escalation)

## MISSION FOCUS: CORRECTIONS/IN-CUSTODY

The more realistic the training, the more effective the results, that's why MILO Range supports a host of system features that you can use to simulate virtually any scenario.

Available on the following fully portable platforms: MILO Range Classic, Advanced, and MSATS systems

### System Features

- Complete system in one case
- Instructor-controlled multi-branching response options
- Intuitive Windows-based Instructor Interface
- Safe, simulated laser-based force options
- Marksmanship and interactive graphics-based firearms drills

### Training, Warranty & Support

- One day Train-the-Trainer MILO instruction at your site
- One and two-year full-coverage warranty included
- Expanded yearly coverage available
- 24/7 telephone support
- Free software updates and new scenarios as they are produced

### Examples of corrections/in-custody situations include:

- In-cell suicide attempt
- Hostage situation
- Transportation safety
- Yard/cell/chow hall disruption
- Prisoner mental health response
- Therapy session disruption

"The goal of using a MILO simulator is to help train staff to accomplish voluntary compliance where possible through verbal CDT (communication, de-escalation of threats) rather than use-of-force. It also highlights the "signs and symptoms of mental illness, developmental disabilities, and cognitive deficits."

- Spokesperson, Large State Corrections Agency
