LIVE

United States Air National Guard Modular Small Arms Training Set

Newburgh, NY.

Description - A 12 lane, 25 meter rifle rated MCSATS® featuring a centralized control room, Live Fire Simulation systems (2) and programmable moving targetry. Shooting Range Industries (SRI) modular live fire range solution, the MCSATS® required only simple steel plates over asphalt for placement and utilities connected after delivery to become fully functional. Production of the range was completed in 3 months and when delivered, installation was accomplished in just 8 days.

Simulation - Yes - 2 live fire systems with wireless tablets to roam and shoot the system from any location in the bay. By Milo Range

Field Advisor - Jake Cook/Eddie Miranda
